of Engineers®

Eagle Harbor, MI

Harbor Features

- Located on the south shore of Lake Superior on the western shore of the Keweenaw Peninsula, about 35 miles northeast of the North Entry to the Keweenaw Waterway.
- Authorization: River and Harbor Act of 2 March 1945.
- Shallow draft recreational harbor.
- Project Depth is 12 feet.
- Federal Harbor basin is approximately 4.2 acres.
- Structures include a rubblemound breakwater near the old Coast Guard station and a steel revetment from the old Coast Guard ramp to the existing boat ramp.
- Major stakeholders include Eagle Harbor Township and local recreational boating interests.

Project Needs

- Requires periodic maintenance dredging on an infrequent basis. The harbor was last dredged in 1973.
- Navigation structures are primarily maintained by Government floating plant.

Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

Transportation Importance

- This project serves as an important Harbor of Refuge and supports charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
