## Menominee Harbor, MI & WI

### Project Features

- Located on Lake Michigan at the mouth of the Menominee River on the western shore of Green Bay, 16 miles northwest of the mouth of Sturgeon Bay and 49 miles northeast of Green Bay Harbor, about 155 miles from Milwaukee via Sturgeon Bay Harbor and the Lake Michigan Ship Canal.
- Authorization: River & Harbor Act of 3 Mar 1871, with modification in the ensuing years.
- Deep draft commercial harbor.
- Project depths varying from 21 to 23 feet below LWD in entrance and inner channels.
- 401,000 tons of material shipped or received in 2004.
- Over 3,700 feet of pier structures.
- Over 2 miles of maintained channel.
- Major stakeholders include U.S. Coast Guard, Lake Carriers' Association, K&K Warehousing, Marinette Marine, and Marinette Fuel and Dock Co.

### Project Needs

- Approximately 20,000 to 25,000 cubic yards of material must be dredged from the channel on a 5 to 10 year cycle; the harbor was last dredged in 2008.
- Navigation structures are primarily maintained by Government floating plant.
- WRDA 2007 authorized the deepening of this harbor. FY08 Omnibus bill allocated \$935k towards this effort.

### Consequences of Not Maintaining the Project

- Significant loss of jobs locally.
- Light loading associated with inadequate maintenance dredging, increasing vessel transportation costs.

### Transportation Importance

- Locally significant receiving port on the Great Lakes with some international trade.
- Commodities received include pig iron, pulp and paper and coal.

**U.S. Army Corps of Engineers Fiscal Year (FY) 2008, 2009 and 2010  
Menominee Harbor, MI & WI - Project Needs and President's Budget (\$1,000)**

<b>Work Package</b>	<b>FY08 Need</b>	<b>FY08 Allocation</b>	<b>FY09 Need</b>	<b>FY09 President's Budget</b>	<b>FY10 Need</b>	<b>FY10 Budget*</b>
