(313) 226-2202
e-mail: Carl.L.Woodruff@usace.army.mil

LAKE SUPERIOR OUTFLOW CONDITIONS

The International Lake Superior Board of Control, under the authority granted to it by the International Joint Commission, has set the Lake Superior outflow to 2,260 cubic meters per second (m^3/s) (79.8 thousand cubic feet per second (tcfs)) for the month of July. This is the outflow recommended by the regulation plan for the month of July and is an increase from the June outflow of 2,210 m^3/s (78.0 tcfs).

The July outflow will be released by discharging about 2,132 m^3/s (75.3 tcfs) through the three hydropower plants and passing most of the remaining flow through the control structure at the head of the St. Marys rapids. The gate setting of the control structure will be maintained at the existing setting equivalent to one-half gate open (four gates open 25 cm, or about 10 inches each). There will be no change to the setting of Gate #1 that supplies the Fishery Remedial Works.

The water supply to Lake Superior this past month was less than average for June, while the supply to Lakes Michigan-Huron was above average for June. Currently, the Lake Superior level is about 13 cm (5 inches) below its long-term average beginning of July level and is 14 cm (6 inches) above the level recorded a year ago. This past month the level of Lake Superior rose by 5 cm (2 inches), while it usually rises by 7 cm (3 inches) during June. The level of Lakes Michigan-Huron rose by 8 cm (3 inches) this past month, which is more than its usual June rise of 6 cm (2 inches). The level of Lakes Michigan-Huron is now about 26 cm (10 inches) below its long-term average beginning of July level, and is now 32 cm (13 inches) higher than a year ago. The Board continues to monitor conditions both on Lake Superior and downstream and will advise the International Joint Commission accordingly on those conditions.

Brigadier General Steven R. Hawkins, Commander, Great Lakes and Ohio River Division, U.S. Army Corps of Engineers, is the United States Board Member. Mr. Carr McLeod is the Board Member for Canada.
