

How to print using MaxView Reader

1. You must be in the plans.maxfr.maxFR file , Go to File/Print

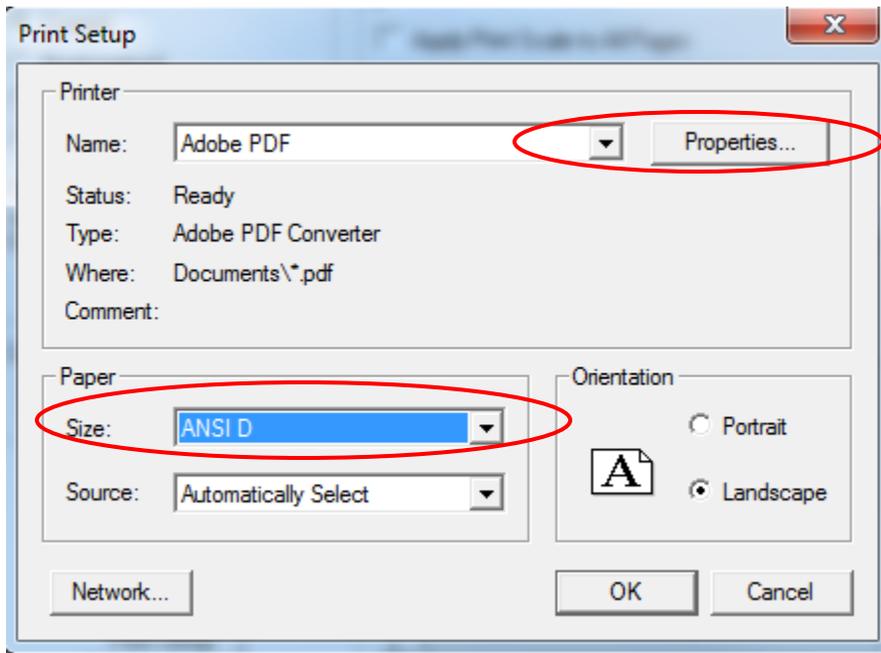

The following is the print menu, here you can select which pages to print, how many copies and the scale:

First you want to make sure you are printing to the correct printer/plotter. Select print setup for this.

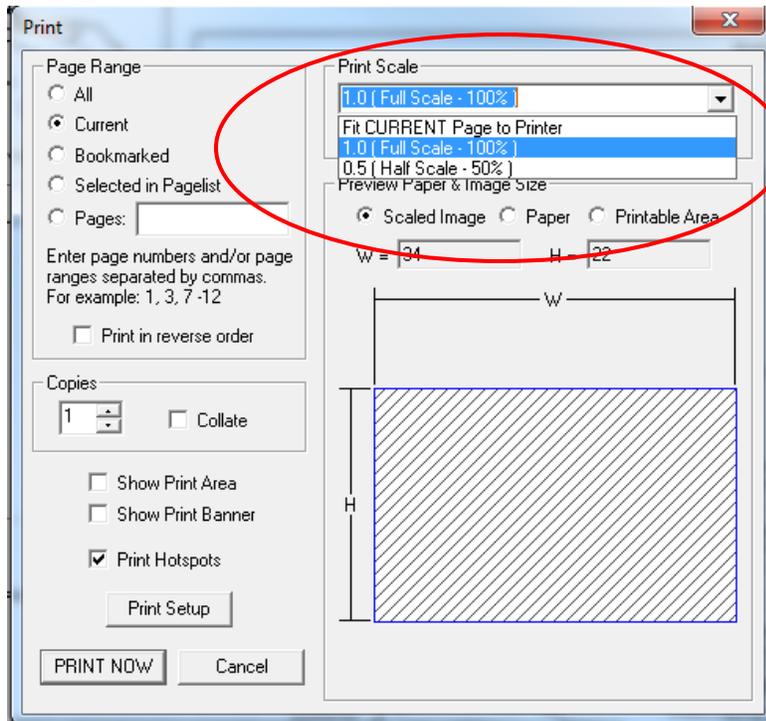

The following is the print setup page.

Use the drop down menu to select your desired printer, and make adjustments to properties if needed. Select your desired page size.

When done select ok.

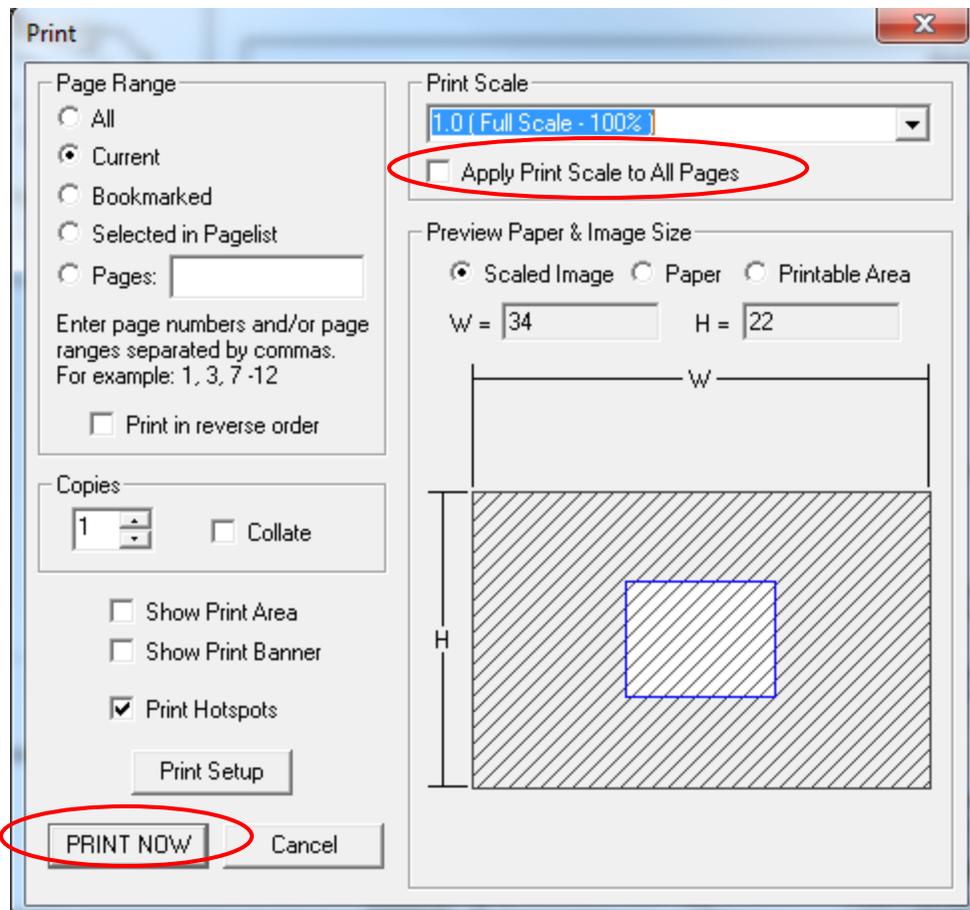

You will be taken back to the print menu.

Here you need to select your print scale:

If you are printing to full scale select the 100% full scale: otherwise select fit current.

Next is

Check the apply print scale to all pages if you are printing the same size pages.

Now select print now.
