

## Algoma Harbor, WI

### Harbor Features

- Located on the west shore of Lake Michigan, about 68 miles from Green Bay via Sturgeon Bay Harbor and the Lake Michigan Ship Canal and about 115 miles north of Milwaukee.
- Authorization: River & Harbor Act of 3 March 1871
- Harbor that currently serves primarily recreational boat traffic
- Project depth is 14 feet
- 1,102 foot long north pier and a 1,530 foot long south breakwater
- 2,000 feet of maintained channel
- Dredged material is placed in an upland site provided by locals on an as-needed basis.
- Major stakeholders include U.S. Coast Guard and Lafond Fisheries.

### Project Requirements

- The harbor channels are stable and require only infrequent dredging; the harbor was last dredged in 1993.
- Maintenance dredging is currently required.
- The harbor's breakwater requires repair.

### Consequences of Not Maintaining the Project

- Loss of jobs locally
- Loss of recreational navigation and 30-40 charter fishing operations in the area.
- Based on a recent UW Extension economic study, the harbor generates over \$3M annually for the Algoma community.

### Transportation Importance

- This project serves primarily charter fishing and recreational navigation interests.
- Harbor of Refuge
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
