

Cedar River Harbor, MI

Harbor Features

- Located on Green Bay off of Lake Michigan, about 25 miles northwest of Menominee, MI.
- Authorization: River & Harbor Acts of 2 Aug 1882, 28 Oct 1965
- Shallow draft recreational harbor
- Project depth is 8 feet
- Approximately 3,500 feet of maintained Federal channel
- Approximately 2,400 feet of piers
- Dredged material is placed along the beach as beach nourishment.
- Major stakeholders are the Ruleau Brothers and Michigan DNR.

Project Requirements

- Approximately 20,000 to 40,000 cubic yards of material must be dredged on a three to five year cycle; the harbor was last dredged in 2006.
- The harbor currently requires maintenance dredging.
- The east rubble mound breakwater requires modification to prevent sediment deposition in the navigation channel.

Consequences of Not Maintaining the Project

- Loss of jobs locally
- Loss of recreational and charter fishing in the area

Transportation Importance

- This project serves as an important Harbor of Refuge and supports charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
