

Black River Harbor, MI

Harbor Features

- Located at the mouth of the Black River on the south shore of Lake Superior, 39 miles west of Ontonagon, MI and 47 miles east of Ashland, WI.
- Authorization: River & Harbor Act of 2 Mar 1945
- Shallow draft recreational harbor
- Project depths are 10 feet in the approach channel, 8 feet in the access channel and 6 feet in the river channel.
- Approximately 4,000 feet of maintained Federal channel
- Approximately 1,300 feet of rubble mound breakwaters
- Dredged material is placed along the beach as beach nourishment.
- Major stakeholders include US Forest Service, Michigan DNR, Gogebic County, US Coast Guard, Marina concessionaire, along with charter, recreational, and Native American fishing interests.

Project Requirements

- Approximately 4,500 to 7,500 cubic yards of material must be dredged on a three to five year cycle; the harbor was last dredged in 2009.
- The harbor currently requires maintenance dredging.

Consequences of Not Maintaining the Project

- Further shoaling will limit or cease recreational and transient boating
- Loss of jobs locally
- Loss of recreational and charter fishing in the area

Transportation Importance

- This project serves as an important Harbor of Refuge in a remote area of Lake Superior and supports fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
