Project Requirements

- The harbor requires dredging on an infrequent basis, and was last dredged in 1984.
- USACE has initiated a study under Section 107, Small Navigation Projects program. The Ogdensburg Bridge and Port Authority is the non-Federal sponsor. A determination of Federal interest was completed by the USACE, Buffalo District on August 31, 2011 and found a positive interest in moving forward to the cost-shared Feasibility study phase. Feasibility will commence once a Feasibility Cost-Sharing Agreement is signed.

Consequences of Not Maintaining the Project

- Reduction of bulk commodities that pass through the harbor and generate \$4M annually in direct revenue while supporting 31 direct, indirect, and induced jobs that produce over \$2M per year in personal income.
- If the harbor was closed to commercial traffic, commodities would have to be transported by rail. This would increase annual emission rates by over 40 tons of harmful particulate matter (PM-10) and increase costs by \$70,000 due to increased railroad related accidents.
- Light loading; losses of between 3 and 4 feet of channel depth would result in increased transportation costs of between \$79,000 and \$167,000 annually.

Transportation Importance

- Ogdensburg is the only U.S port on the St. Lawrence River and is the northernmost port in New York.
- Commodities shipped or received include road salt and corn gluten.
- Harbor of Refuge.
- Home to Auxiliary U.S. Coast Guard station.
