I-RAP-St. Louis River Remediation Design, MN/WI

Project Location: The St. Louis River/Duluth Harbor is located at the boundary between Wisconsin and Minnesota near Duluth, MN.

Project Description: The St. Louis River/Duluth Harbor were designated an Area of Concern (AOC) under the Great Lakes Water Quality Agreement. The Corps is offering Planning & Technical assistance and contract management to the Minnesota Pollution Control Agency (MPCA) to assist in their effort to remove their beneficial use impairments (BUI) and delist the AOC while using material from Corps maintenance dredging as fill material for these restoration sites. This project is authorized under Section 401(a) of the Water Resources Development Act of 1990, as amended..

Non-federal Partner: Minnesota Pollution Control Agency (MPCA)

Project Status: Chambers Grove has been designed and constructed. Knowlton Creek has been designed and construction will begin in Spring 2016. Design is complete for the 21st Avenue. Initial design discussions have begun on 40th Avenue, Grassy Point, Kingsbury Bay, and Perch Lake. Three additional sites are being added through an amendment to the original partnership agreement.

Estimated Project Costs	
Federal	3,432,000
Non-Federal	2,230,800
Total	5,662,800
