## Request for a Wetland Delineation

This document can be used when you would like to submit a request for a Wetland Delineation to the U.S. Army Corps of Engineers (USACE). A Wetland Delineation request involves one of our Regulatory Project Managers visiting the site in question to perform a delineation (determine the presence and boundaries) of the wetlands on the property. **PLEASE NOTE:** *Properties must be within the jurisdictional area of the Detroit District and under three (3) acres.* For those areas over three (3) acres, we recommend hiring a consultant to perform the wetland delineation. Once the consultant has performed the delineation, you may request that the USACE confirm the delineation (via this document), as long as the property is within the jurisdictional area of the Detroit District.

So that we may better serve you, please supply the following information and supporting documents described below. This document can be filled out online and then printed. The document and supporting information should be mailed, faxed, and/or Emailed to:
