

PROJECT FACT SHEET (20 FEB 04)

PROJECT: St. Mary's River Flood Control Project

DESCRIPTION: A 100-year flood event occurred in July 2003 that greatly affected those living in the vicinity of the St. Mary's River. The USACE will investigate this situation under the Section 205 study authority to determine Federal interest in partnering with a non-Federal sponsor to alleviate the potential flooding concerns in this area.

CONGRESSIONAL INTEREST: Souder (R) IN-3; IN Senators Bayh (D) and Lugar (R)

LOCATION MAP & PICTURE:

NON-FEDERAL PROJECT SPONSOR: City of Fort Wayne (POC: Cathy Robb, 260-438-2351)

PROJECT AUTHORITY: Section 205 of the Flood Control Act of 1948, as amended.

STAGE: Feasibility

STATUS: A formal request to initiate a Section 205 study was submitted to the Detroit District by the City of Fort Wayne, IN on 24 Sept 2003. Funding to initiate the study was requested on 22 December 2003 but has not yet been received. If not funded in FY04, FY05 funding could be used to initiate the feasibility study. Upon receipt of funding the Corps will assign a project delivery team, develop a project schedule and budget, and prepare the necessary documentation to determine if indeed Federal interest to alleviate the potential flooding concerns in the identified area is warranted and justified.
