PROJECT INFORMATION SHEET
February 2011

PROJECT: Cass River, Spaulding Township, Michigan - Section 205 (C-CAP)

DESCRIPTION: Existing levees on the north and south sides of the Cass River (except for the portion completed in early 1999 by the Township) are in poor condition and portions appear to be unstable. In addition, the low top elevations of the existing levees do not adequately protect the area from flooding. The project is located at the Cass River in Saginaw County between East (M-13) Street and Sheridan Road. The Cass River has flooded nearby homes and businesses in Spaulding Township for the past 30 years. During some of these floods traffic on major highways has been stopped, and at times has made emergency rescue services (fire and ambulance) impossible.

CONGRESSIONAL INTEREST: Camp (MI-4); Senator Levin (MI), Senator Stabenow (MI)

LOCATION MAP & PICTURE:

NON-FEDERAL PROJECT SPONSOR: Spaulding Township (POC: Jerry Fox, 989-777-0950)

PROJECT AUTHORITY: Section 205, Flood Control Act of 1948, as amended – Flood Control

FUNDING:

	<u>Total</u>	<u>Federal</u>	<u>Non-Federal</u>
Current Working Estimate:	\$ 8,050,000	\$ 5,232,000	\$ 2,818,000
Funds Allocated prior to FY11:	\$ 1,513,000	\$ 1,513,000	\$ 0
FY11 Energy and Water Allocation:	\$	\$	\$
FY11 GLRI Allocation:	\$	\$	\$
FY12 Budget:	\$	\$	\$
Funds required to complete (>FY12):	\$ 4,197,000	\$ 2,223,000	\$ 1,974,000

STAGE: Feasibility

STATUS: Project involves the design and construction of dikes on the north and south sides of the Cass River. Statutory language received to allow for \$345,000 in credit and authority to proceed with construction regardless of Benefit to Cost. The District prepared an Enhanced Fact Sheet in 2011 for estimation of potential costs and benefits. The fact sheet will be evaluated by USACE HQ for further consideration.

PM: David Bowman, 313-226-2223, David.W.Bowman@usace.army.mil
