ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

The wetlands identified as jurisdictional flow into Duck Creek, which eventually flow into the Little Calumet River, a navigable water of the United States. The wetland determined to be non-jurisdictional is an isolated water body with no hydrologic connect to other waters of the United States.
