**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

Site is primarily upland with many disturbed areas. The two wetlands identified on site appear to have been excavated in upland. These wetlands are hydrologically isolated from other wetlands/waters of the U.S. and therefore, are not within the jurisdiction of the Corps.
