GLRI Duluth - Superior SND

Project Location: Duluth-Superior, MN-WI

Project Description: The Corps will remove sediment from within the Federal Navigation Channel in the Duluth-Superior Harbor and place the material at sites designed for habitat restoration. Material will be placed in accordance with the aquatic habitat restoration design developed under the St. Louis River Area of Concern Remedial Action Plan. In 2018 GLRI (Great Lakes Restoration Initiative) Funds may be used to dredge and place 15,000 CY (Cubic Yards) in the 40th West Site This project is authorized under Operations and Maintenance. This project is authorized under Operations and Maintenance.

Non-Federal Partner: N/A

Project Benefits: The placement of dredge material will create optimal water depths to promote the growth of aquatic vegetation in support of a healthy benthic community and robust fishery

Project Status: Planning and design efforts in support of 2018 maintenance dredging contract began in November 2017.

Estimated Project Costs	
Federal	2,300,000
Non-Federal	0
Total	2,300,000

Project Milestones	
Begin Planning and Design	Nov 2017
Award Construction Contract	Jun 2018
Begin Construction	Jul 2018
Complete Construction	Nov 2018
