

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

IIS-Ott-Story Remedial Action OU2, MI

Description

The project is located in Muskegon, Michigan. The Ott/Story Groundwater Treatment Facility (GTF) was constructed at a U.S. Environmental Protection Agency (USEPA) National Priorities List (NPL) Superfund site in Muskegon MI, in a project started in 1993. Twelve (12) extraction wells pump approximately 800 gallons-per-minute of contaminated water to the plant for treatment and subsequent discharge to the Muskegon River. The GTF treats approximately 1 million gallons of contaminated water per day. In addition, there are over 100 monitoring wells throughout the site to monitor the cleanup.

Congressional Interest

Huizenga (MI-2); Senator Peters (MI), Senator Stabenow (MI)
