

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

GLRI-Lakewide Action and Management Plan

Description

A Lake wide Action and Management Plan (LAMP), is a plan of action to assess, restore, protect and monitor the ecosystem health of the Great Lakes. It is used to coordinate all government and non-government partners working to improve a Lake's ecosystem. A public consultation process directs attention to public concerns. Priority projects, such as sampling tributaries for chemicals, developing watershed plans, restoring habitats, conducting hazardous waste collections, and many others, are implemented in pursuit of LAMP goals and objectives. The project is authorized under Annex 2 of the Great Lakes Water Quality Agreement (1987 Protocol).

Project Authority

LAMPs are directed under Annex 2 of the Great Lakes Water Quality Agreement (1987 Protocol)

Funding		<u>Total</u>	<u>Federal</u>	<u>Non-Federal</u>
Current Working Estimate:	\$	729,800	\$ 729,800	\$ 0
Funds Allocated prior to FY17:	\$	665,400	\$ 665,400	\$ 0
E and W Funds Allocated prior to FY17:	\$	0	\$ 0	\$ 0
GLRI Funds Allocated prior to FY17:	\$	665,400	\$ 665,400	\$ 0
FY17 Energy and Water Allocation:	\$	0	\$ 0	\$ 0
FY17 GLRI Allocation:	\$	64,400	\$ 64,400	\$ 0
FY18 Budget:	\$	0	\$ 0	\$ 0
Funds required to complete (>FY18):	\$	0	\$ 0	\$ 0

Stage

N/A

Status

LAMPs in five Great Lakes are active with broad participation. For each of the five LAMPs, the Corps has a lead person and a team of others that participate in and support the LAMP. These members attend meetings and conference calls; participate on working groups and provide technical assistance; serve as a conduit of information about Corps programs, authorities, projects, monitoring data and resources; review and comment on plans and proposals for studies, monitoring and remedial actions; and coordinate actions of others on the Corps team to support the LAMP.
