

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

C-154-Washburn WWTF Improvement, WI

Description

Project consists of improving operation of the Waste Water Treatment Facility through the use of new treatment processes, and better monitoring of existing processes. The current project includes upgrades to flow measurement and grit removal that increase system capacity and allow for uninterrupted operation during high flow events. New Return Activated Sludge/Waste Activated Sludge pumps and control systems, new chemical feed systems, and a new ultraviolet disinfection system are to be installed. These upgrades provide improved sewage handling with reliable, accurate, automated operation to better handle storm water flows.

Congressional Interest

Duffy (WI-7); Senator Johnson (WI), Senator Baldwin (WI)

Location Map & Picture

Non-Federal Project Sponsor

City of Washburn, WI
