

# PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

## CAP-14-Mt Pleasant, WI

### Description

The project is located in the Village of Mount Pleasant, Wisconsin. The project is to stabilize shoreline erosion along Lake Michigan, retarding the current bluff recession rate of 40-50 feet per year. Erosion is threatening Village roads and utilities.

### Congressional Interest

Ryan (WI-1); Senator Johnson (WI), Senator Baldwin (WI)

### Location Map & Picture

### Non-Federal Project Sponsor

Village of Mount Pleasant, Wisconsin

### Project Authority

Section 14, Flood Control Act of 1946, as amended - Streambank and Shoreline Erosion Protection of Public Works and Non-Profit Public Services.

### Funding

### Stage

Feasibility

### Status

The Federal Interest Determination was completed in FY17. While public infrastructure, to include paved roads, water supply and sanitary sewer piping, is impacted, the scope of the project greatly exceeds the limitations of this program. Alternative solutions have been proposed to Mt. Pleasant and to neighboring communities that are experiencing similar issues.
