B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The proposed work is set back 1' landward of the existing seawall. This area is completely on dry land as the existing seawall is still functioning as erosion control and is at the Ordinary High Water Mark. As such the new seawall would be landward of the Corps Ordinary High Water Mark and out of our jurisdiction.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
