I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 8/26/2020
 ORM Number: LRE-2020-01808-192
 Associated JDs: N/A
 Review Area Location¹: State/Territory: Indiana City: Columbia City County/Parish/Borough: Whitely
 Center Coordinates of Review Area: Latitude 41.23899 Longitude -85.46750

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
Private Pond	0.13 on-site	acre(s)	(b)(8) Artificial lake/pond constructed or excavated in upland or a non-jurisdictional water, so long as the artificial lake or pond is not an impoundment of a jurisdictional water that meets (c)(6).	There are no tributaries near the pond identified as Private Pond, the closest identified tributary is 0.3 miles west of the pond location. The geographic location of the pond in relation to the tributary does not meet wetland adjacency criteria since the wetland does not abut an (a)(1)-(a)(3) water and is not physically separated by a natural feature from an (a)(1) - (a)(3). The Private Pond is also not physically separated from an (a)(1) - (a)(3) water by an artificial structure, dike barrier, etc., that has a direct hydrologic connection, this is based on the site review. The Private Pond is also not inundated by floodwater in a typical year from an (a)(1) –(a)(3) water, the Private Pond is located outside the mapped floodplain. Based on the FEMA flood map, the floodplain for the closest tributary is mapped as a 0.2% annual chance flood hazard or 500 year flood event. Based on the geographic distance and annual flood chance, the Private Pond would not be subject to inundation by flooding in a typical year.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
